

# STONEHILL 25 feat Tuhkanen

## 13.9.2025

### SPECTATORMAP

## Welcome to the event!

The competition is an endurance challenge for ATVs and off-road vehicles. Teams try to visit as many checkpoints as possible within the competition time. The harder the checkpoint, the more points it gives. The winner is the team that collects the highest score.

Competitors may visit checkpoints in any order, and not all need to be collected. For ATVs, another vehicle must be brought within touching distance of the checkpoint. For cars, classes are divided by tire size: Road-legal vehicles with tires under 33" compete in the small class, larger road-legal vehicles in the big class. The open class allows vehicles without road inspection, as well as those that don't fit into other classes. In the open class you'll see highly modified competition builds.

### A few important notes:

- Competition time on Saturday: 07:00-21:00, spectator area open 11:00-16:00.
- With your own motor vehicle you may only drive on roads suitable for normal passenger cars..
- When parking, make sure you don't block or endanger other road users.
- Beware of winching vehicles—if a cable snaps, it whips with dangerous force.
- Keep a safe distance from vehicles.
- Respect competitors when they ask for space.
- Remember: if you can carry it into the forest, you can carry it out—let's keep the area free of litter.
- Be careful with cigarette butts and similar items.

### Driving areas:

#### 1. Välikoski + Spectator Area (11:00-16:00)

Räätäkylläntie 3

A very versatile technical area with checkpoints marked in blue on the map as spectator points. These checkpoints can only be visited between 11:00 and 16:00, so practically all teams will come here during that time especially since the checkpoints are worth high points. The area includes spectator-friendly challenges that really force the competitors to work.

There is also a buffet on site, where your purchases support the local club. Payment is accepted in both cash and card.

The terrain is varied but without major elevation changes. An especially interesting viewing spot is by the river checkpoints. And there's plenty to see—from hay fields to small ditches.

#### 2. Haasiavaara

Tipasojantie 180

One of the most demanding areas of the competition, where major point differences may be made. Driving here mainly follows firm forest machine tracks. Good viewing spots can be found right at the northern quarry parking area. At the southern turnaround point there is a place for making a fire.

#### 3. Louhivaara

Pohjois-Tipaksentie 21

Pleasant and flowing driving. This area features small elevation changes and softer spots for those who seek them. Overall, it is a tasty driving area in every sense. Existing tracks make it easy for spectators to move around the area.

Address: Räätäkyläntie 3

- From the spectator checkpoint area marked in blue, competitors may only collect checkpoints between 11:00 and 16:00, so there will definitely be action to see. These checkpoints are scored with very high points.

- In the area marked in green, CF-Moto ATVs will be on display, presented by Tuhkanen.

- A buffet is available at the parking side of the area. Both card and cash are accepted.

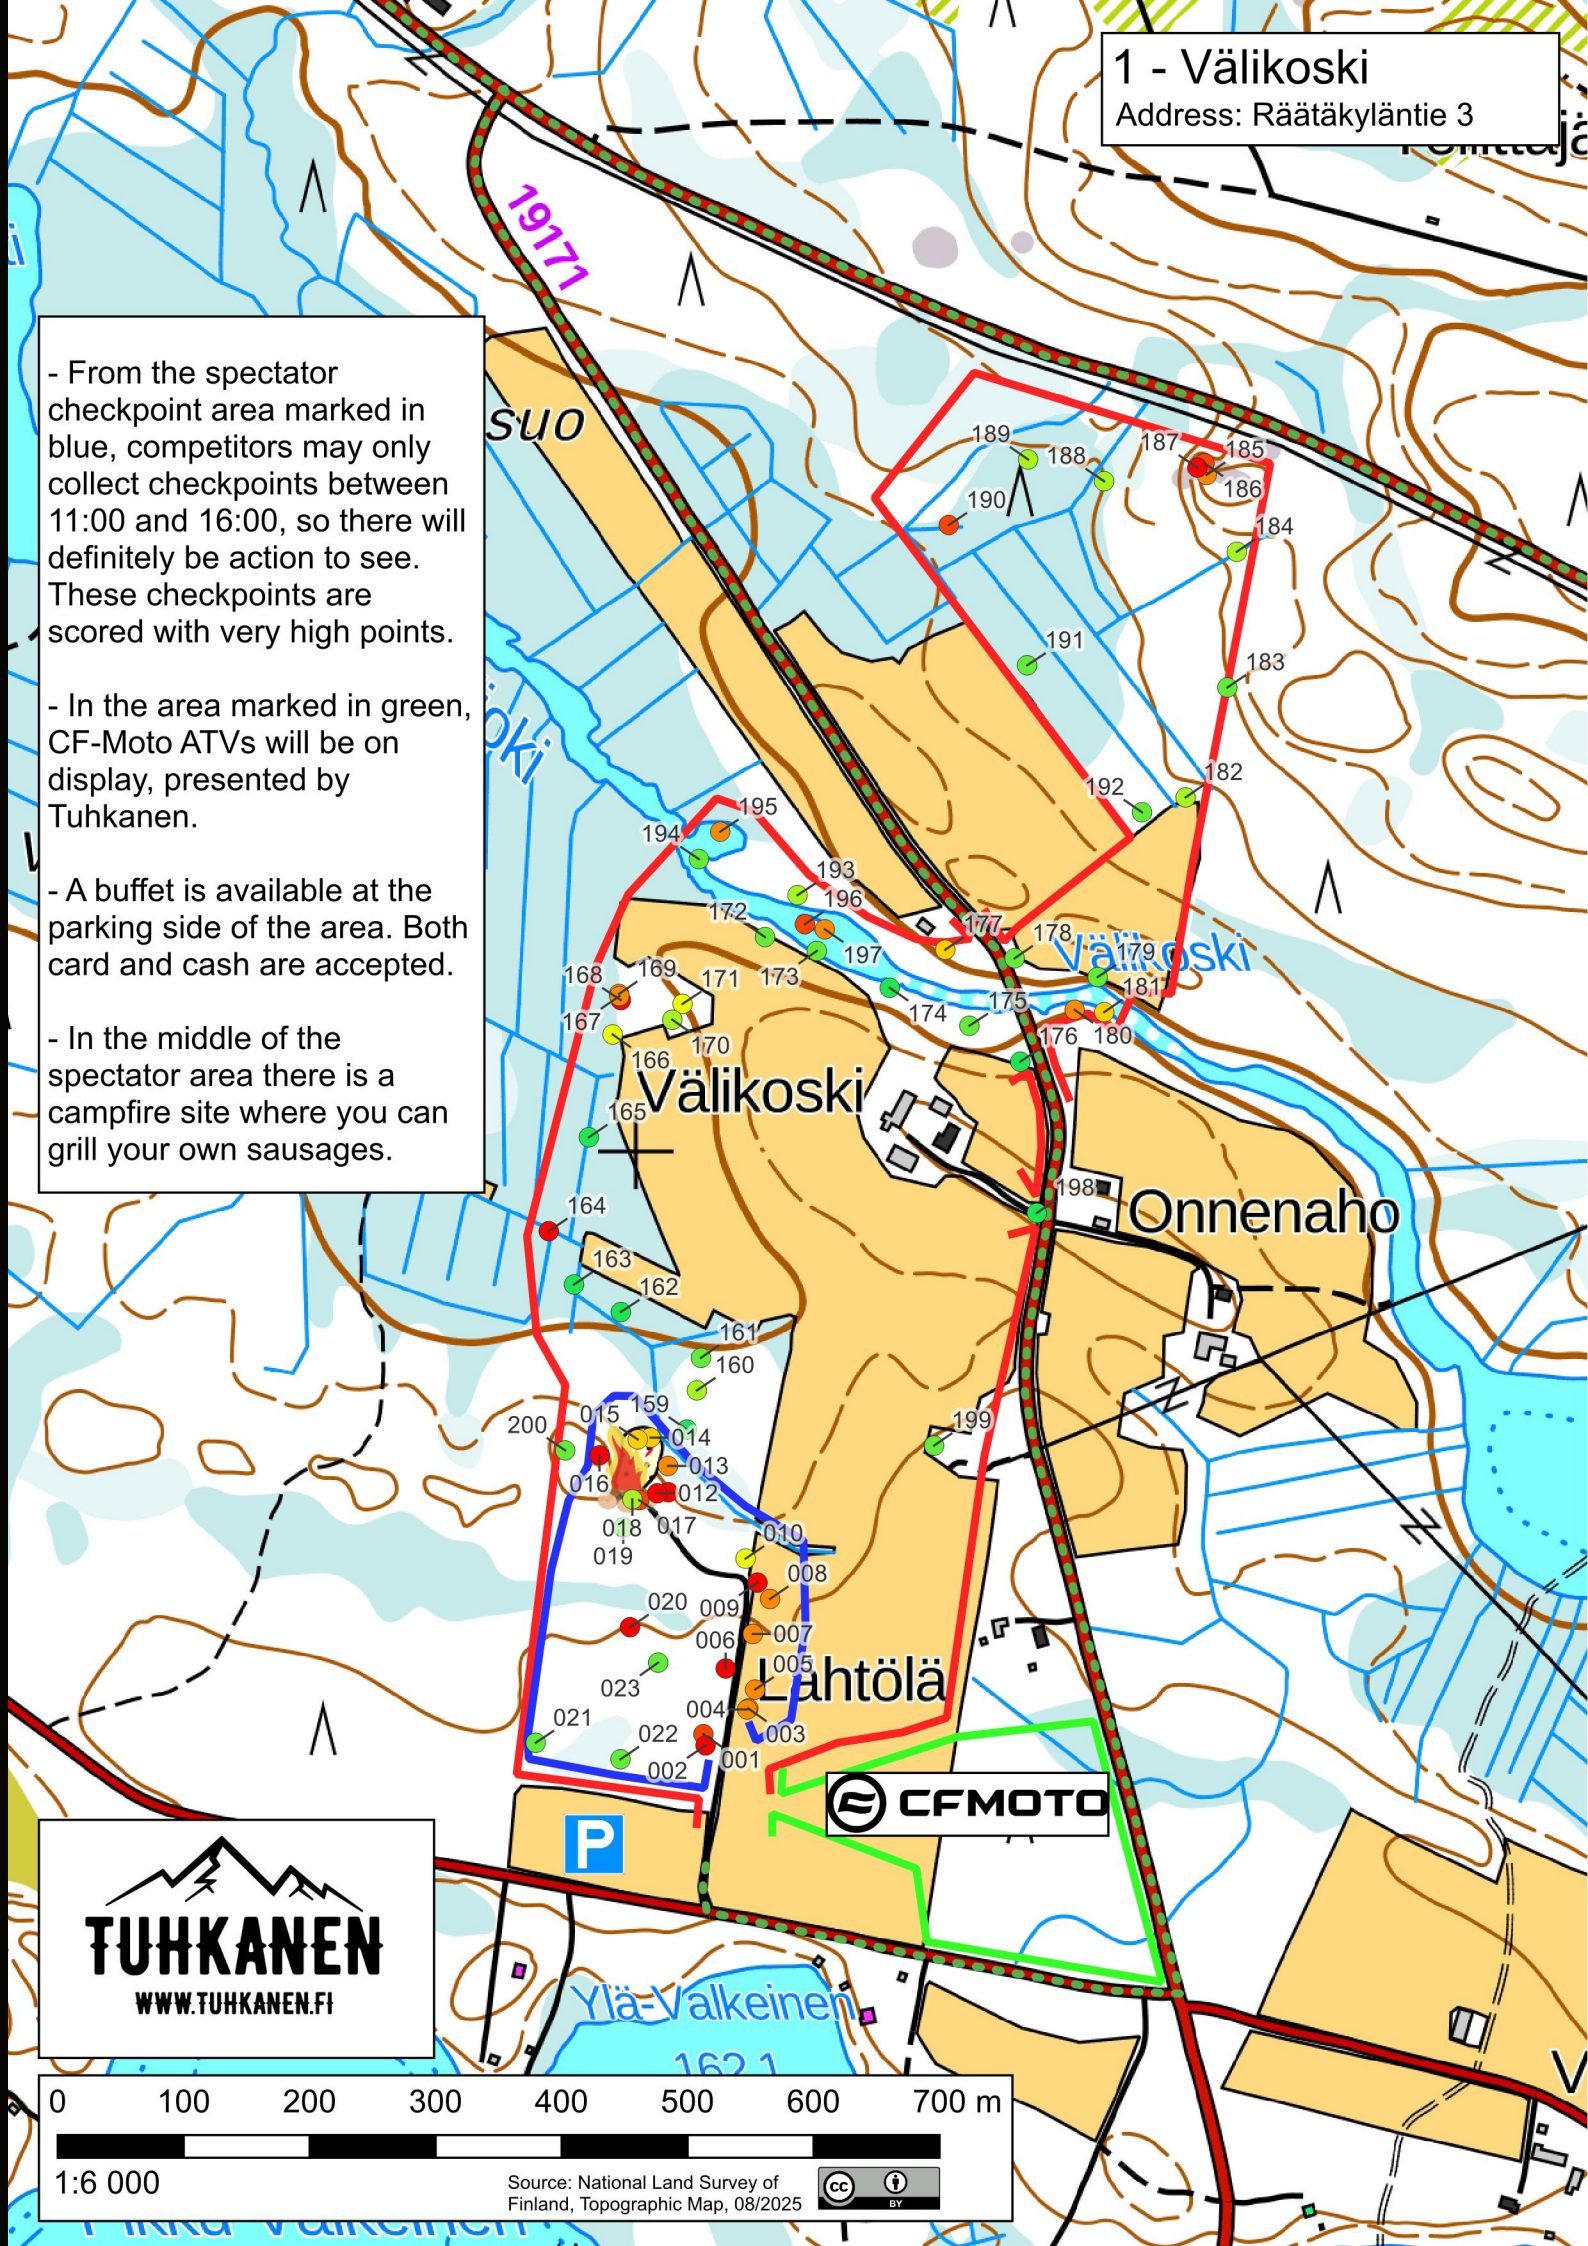

- In the middle of the spectator area there is a campfire site where you can grill your own sausages.

P

- You can park along Pohjois-Tipaksentie where the P symbol is shown on the map. Please park on the eastern side of the road so that all cars are on the same side and the road does not become unnecessarily narrow.

- A pleasant and versatile area, but parking possibilities are limited.
